

## **Carasent will be responsible for all Confrere customer accounts**

**From the 1<sup>st</sup> of August, Carasent will be responsible for all Confrere customer accounts. Confrere is a leading provider of video solutions for physicians, mainly in Norway. They have already provided over a million video calls.**

Confrere's customer base is primarily focused on primary care clinics, therapists, and hospitals. Security is accordingly their highest priority together with usability.

At Carasent, we work continuously to offer quality healthcare services through digitalization. This agreement has high value for our further work, and we look forward to having Confrere on our team!
